SANTA MARTA HOTEL • LISBOA

A place with its own history

Old Façade

The building where is settled Inspira Santa Marta Hotel was purchased in 2006 by Inspira Hotel Management, which carried a total reconstruction of the building interior between 2007 and 2009, maintaining the characteristic features of the existing façade. The original building dated from the end of the 18th century and its facade is an example of Baroque and civil Pombal architecture.

Inspira Santa Marta Hotel is located in Coração de Jesus district where are settled some exemplary buildings of Lisbon's heritage with historical importance, for example: the former Convent and Church of Santa Marta (now Santa Marta Hospital), Conde Redondo Palace (current Universidade Autónoma) and former Santa Joana Convent (now headquarters of public services).
