

Inspira and Environment

INSPIRA invests in sustainable strategies; differentiating technology infrastructures and services so that once action is taken, employees and customers will cause a minimized impact on the environment.

ENERGY

- 100% Renewable Energy;
- Solar Heater Panels;
- LED and Lower Energy Consumption Lighting;
- Energy Star equipment;
- Lighting Sensors;
- Card System Master Control Switch (MCS);
- Double glazed windows in all rooms,
- Lobby skylight with heat-reflecting film,
- Cork flooring rooms (energy saver thermal material),
- Rockwool insulation,
- CO2 Emissions Offset Program,
- Building Management System (BMS).

WATER

- Flat mops cleaning system;
- Eco Label and Biodegradable cleaning products and amenities;
- Low flow aerators / Taps with sensors;
- Dilution control systems;
- Dual flush toilets.

WASTE

- Paper-free hand dryers;
- Amenity dispensers;
- Recycled paper;
- Organic waste recycling;
- Waste sorting in all hotel operations;
- Paperless (ex.:electronic billing and contracts);
- Water served in refilled and recycled glass bottles;
- Take back suppliers policy;
- Licensed waste operations.

BIODIVERSITY

- Preference given to biological and local products;
- MSC certified or sustainable fishery (whenever possible);
- Protected Designation of Origin products (PDO, whenever possible);
- Endemic and national plant species;
- Sponsorship of biodiversity initiatives

You and the Environment

Small steps that can make the
difference!

ENERGY

- Turn off your electrical appliances when they are not in use. (ex.: air conditioning; batteries; lights; printers, computer screens, etc...).
- Turn off your iron 5 minutes before you finish ironing your clothes;
- For as long as the air conditioning is on, keep your windows shut;
- Choose low consumption light bulbs and appliances

WATER

- Don't throw garbage in the toilet and avoid any unnecessary flushing;
- Avoid keeping tap water running while you don't need it (washing hands, brushing teeth, shaving or showering);
- Make sure you choose ecolabel and biodegradable cleaning and hygiene products ;
- Whenever you need to use a washing machine, make sure it is fully loaded and set in the appropriate washing program.

WASTE

- Make sure you only print the documents you really need, using both front and back of a paper sheet.
- Say no to plastic bags, give preference to reusable ones;
- Sort your garbage correctly using the appropriate containers for each type of material;
- Reduce, Reuse, Recycle.
